

Expect even, every time

Achieving even results time after time demands precisely controlled heat, distributed consistently throughout your double oven. Unlike standard double ovens, the SurroundCook oven's advanced fan technology ensures that every part of your dish is getting exactly the heat it needs.

Achieving even results time after time demands precisely controlled heat, distributed consistently throughout your double oven. Unlike standard ovens, the SurroundCook oven's advanced fan technology ensures that every part of your dish is getting exactly the heat it needs.

Product Benefits & Features

Heat activated catalytic cleaning

The catalytic lining absorbs the grease from cooking and is activated by regular heating to 220°C. The grease residue is oxidised leaving the catalytic surface clean.

Cooked evenly everywhere

With this oven, using energy efficiently also means cooking efficiently. It has a new convection system called Hot Air, which ensures hot air circulates evenly throughout the oven cavity. The result is that the oven heats up faster and cooking temperatures can be reduced by up to 20%, saving you

All the information you need

The LCD touch-control display on this oven puts cooking time, mode and temperature at your fingertips, and gives you access to pre-programmed recipes.

Perfectly bake even the largest batches

Less isn't always more, especially when it comes to delicious baked goodies. The XL Baking Tray is 20% larger than standard-sized baking trays, enabling you to turn out larger batches of sweet treats, with the satisfaction that every single one has been perfectly baked.

An accessible oven

This oven is designed with accessibility in mind; the trays can be inserted quickly and smoothly into the racks.
