Product Benefits & Features

Boiling water, under control with the boil sensor

The Boil Sensor detects rising bubbles and automatically adjusts the temperature settings, reducing it to a controlled simmer. No more monitoring. Saving both time and energy.

Hob2Hood - Cook without distractions

This hob has Hob2Hood, a useful feature that automatically controls your cooker hood and lights. It means you don't get distracted by trying to regulate the fan when you're at crucial cooking moments: you can simply concentrate on getting your dish right. But if you'd rather adjust the fan speed

Perfect control

'Direktouch' controls use the very latest digital technology to ensure precise heat selection.

The adaptable surface for every pan

The MaxiSense® self-sizing cooking zones detect the sizes and shapes of each pan. However large or small. It sends immediate heat to fit their bases, without compromising on performance. Experience the ultimate in kitchen adaptability. For complete culinary control.

Intense rapid heat

No more waiting around for pots to boil. The PowerBoost button gives you an instant burst of heat that boils water in under 90 seconds* – that's even faster than an electric kettle. It's perfect for tasks like boiling potatoes, and other quick cooking jobs too, like searing meat.
