Product Benefits & Features

Results. Without the guesswork with SenseFry®

Use the intelligent touchscreen on the SenseFry® induction hob to select the food and desired result. The technology maintains an even heat for the best frying results. No more guessing when the pan is at the right temperature. And no need to adjust the settings during cooking.

One touchscreen. Total control over cooking

A single, full colour touchscreen provides complete control over the hob. Monitor live feedback for each zone and adjust the settings accordingly. It's an intuitive way to finesse the cooking process – all it takes is a touch.

Versatility for every purpose

Preparing many dishes at the same time or cooking for a dinner party? This hob is made for those occasions when you need more options, with equally tasty results. Its FlexiBridge feature means you can customize your own cooking area, combining up to 4 segments with a consistent and even heat distribution. It's ideal for large or

Hob2Hood - Cook without distractions

This hob has Hob2Hood, a useful feature that automatically controls your cooker hood and lights. It means you don't get distracted by trying to regulate the fan when you're at crucial cooking moments: you can simply concentrate on getting your dish right. But if you'd rather adjust the fan speed yourself, there are manual

Each cooking zone. Individually timed

Once a cooking zone is in use, its timer can be accessed quickly and conveniently via the touchscreen display. No toggling through menus or other zones. And because each dish can be precisely timed individually, absolute control over the cooking process is assured.
