

Meet the performance wear protector

AEG's built-in 7000 washer dryer integrates with other appliances, runs quietly and provides total care for delicate fabrics. DualSense tailors the temperature and motion of the drum to each load, washing and drying them in one cycle. Minimising the need for dry-cleaning and handwashing.

AEG's built-in 7000 washer dryer integrates with other appliances, runs quietly and provides total care for delicate fabrics. DualSense tailors the temperature and motion of the drum to each load, washing and drying them in one cycle. Minimising the need for dry-cleaning and handwashing.

Product Benefits & Features

Optimised settings for different fabrics with DualSense

DualSense technology automatically adjusts the cycle settings according to fabric types in the load. This means that clothing is washed and dried with exactly the right temperature and optimised drum movements. Every item retaining its size and shape. All in a single cycle.

Customised cycles with ProSense Technology®

ProSense Technology® automatically adjusts washing and drying times according to the size of the load. This provides optimal care for clothing, while saving on time, energy and water. Ensuring the most efficient dry-to-dry process.

Every item refreshed with steam

The steam programme enables clothing to be refreshed without the need for a full cycle. By adding steam to the drum, fibres are relaxed and creases are reduced, minimising the need for ironing. And because this prevents garments from being overwashed, they look and feel better for longer.

Wash and dry an outfit in only one hour

Have an outfit ready to wear in only one hour with the NonStop 60-Minute programme. It enables small loads to be washed and dried quickly in a single cycle. Providing absolute convenience with no compromise on care.

A quiet machine for a comfortable home

The quiet washing machine ensures low noise levels when running a cycle. Minimising disruptions and maintaining a comfortable home.
