

Zero degrees. Maximum protection for sensitive ingredients

The 9000 Refrigerator's LongFresh compartments create dedicated environments for delicate produce, providing an area colder than the fridge, chilled to 0°C, for meat, fish, or more sensitive food. Topped with humidity controls for adjusting condensation. Protecting nature's flavours, in every bite.

Product Benefits & Features

Maximum ingredient care. With ZeroDegrees LongFresh

LongFresh 0°C compartments, ultimate environment for protecting the condition of ingredients. Area colder than the fridge, kept at 0°C degrees, the right zone for fish, meat or finer produce. Equipped with humidity controls, to avoid drying out. For carefully selected produce, kept full of aroma.

Stable temperatures, with MultiFlow

MultiFlow protects the quality of food by maintaining stable temperature and humidity in the whole fridge. Multiple air channels enable an active circulation of cold air reaching every corner.

Odour-free fridge, with CleanAir Filter

Thanks to its special charcoal structure, the CleanAir Filter absorbs bad odours within the refrigerator. Preventing them from effecting your food's natural taste and aromas.

LED lighting illuminates every corner

The internal LED lighting produces a discreet, soft light, shining evenly across the whole space. Plus, LED bulbs are smaller and more energy efficient than standard bulbs – a more sustainable choice.
