

Great results in half the time with combined heating
 The 8000 MealAssist Combiquick® combi Oven combines heating functions and microwave for cooking in half the time without compromising results. And the CookSmart Touch display guides you from everyday meals to the most ambitious dishes.

Product Benefits & Features

Microwave and Oven. Dual functions for delicious dishes
 Microwave and Oven merges hot air circulation with advanced microwave technology for grilling, roasting and baking up to 50% faster than a conventional oven.

CookSmart Touch. Smart cooking at your fingertips
 The CookSmart Touch display with swipe navigation lets you receive cooking tips and select oven functions. And with energy-saving tips, you can cook more efficiently. Your favourite dishes and methods can be saved on the app and sent to the oven at the touch of a button.

Functions and Dishes. Automatic settings and step-by-step guidance
 Assisted cooking Functions provide the best settings and automatic options such as Roast, Reheat and Dough Prove for outstanding results. And the Assisted Dishes function offers step-by-step guidance for meat, baking, cooking plant-based dishes, fish or vegetables.

Ensure precise cooking with the new Food Sensor
 The new Food Sensor notifies you when your desired temperature is reached and allows you to precisely monitor the cooking process to achieve perfect results every time.

Cooked Evenly everywhere
 The clever Hot Air convection system ensures hot air circulates evenly throughout the oven cavity, for a cooking process that is faster, and more energy efficient.

- Multifunction
- Fast heating
- Electronic temperature control
- Residual heat indicator
- Cooling fan

Product Specification

Main Colour	Black
Cleaning	Clean enamel
Plug or Hardwired	Hardwired connection only
Functions (Main Oven)	Top, Bottom, Hot air, Top & Bottom, Hot air & Top, Hot air & Bottom, Heat save fan, Reheat (manual), Grill, Dough prove, Defrost, Stew, Roast, Slow cook, Preserve, Plate warming, Keep warm, Dehydrate
Product Number (PNC)	KR
Dimensions (mm) (HxWxD)	455x479x409
Built-in Dimensions (mm) (HxWxD)	450x560x550
Timer Type	SUPEX4
Voltage (V)	220-240
Total Electricity Loading (W)	3000
Series	8000
Frequency (Hz)	50
Maximum Microwave Output (W)	1000
Main Oven - Shelves Included	1 Wire shelf chromed
Main Oven - Trays Included	1 Cake tray grey enamel, 1 Dripping pan grey enamel, 1 Trivet chromed
Main Oven - Shelf Support	Side grids Easy entry
