

Food kept juicy, food kept hydrated

6000 TwinTech® No Frost fridge-freezer protects flavours in every ingredient. It's dual cooling system ensures the freezer stays frost-free and the fridge humidity optimal preventing the food from drying out.

Product Benefits & Features

TwinTech® No Frost - keeps food juicy and hydrated

TwinTech® No Frost has an advanced dual cooling system for the fridge and freezer. This technology ensures the freezer stays frost-free and the fridge humidity optimal, preventing the food from drying out.

New-era innovation. Unique fridge-freezer with recycled plastic

A new era of cooling is here. Introducing our fridge-freezer with an inner lining made of 70% recycled plastic. Plastic from discarded fridges is used to make new ones, helping reduce waste through circularity.

*Inner liner rHIPS made with up to 70% recycled plastic representing 13% of total fridge plastic"

The next level of fridge capacity - MultiSpace

The MultiSpace fridge by AEG provides more capacity than standard designs by incorporating additional storage into the top of the unit. And with an adjustable interior, this fridge is the most versatile way to preserve ingredients.

Stable, even temperature and humidity, with MultiFlow

MultiFlow protects food quality by maintaining stable, even temperature and humidity. Multiple air channels in the back wall actively circulate cold air to reach every corner and allow storage in the back without the risk of freezing items.

Adaptable for every taste, with CustomFlex®

Keeping all your fresh ingredients to hand is key to creating fresh, delicious dishes. With CustomFlex® you can organise your fridge storage just the way you want. Rearrange bins quickly and easily to maximise storage space. The fridge that adapts after your taste.
