

8000 Meal Assist with SteamPro NBP8S731AB

Integrated Oven 70 l A++ Black

NBP8S731AB

Tastier. Healthier. With steam
8000 MealAssist Oven with SteamPro makes your dishes tastier and healthier, retaining up to 90% of vitamin C with steam. And the sous vide function uses low temperature for more flavour while the oven guides you through every step for perfect results.

Product Benefits & Features

Cooking with steam can preserve up to 90% of vitamin C.
SteamPro with sous-vide lets you bake, roast, stew, reheat and steam at an accurately controlled temperature. Steamify adds the right amount of steam, making your favourite food crispy and tasty with up to 90% of vitamin C retained.

CookSmart Touch. Smart cooking at your fingertips
The CookSmart Touch display with swipe navigation lets you receive cooking tips and select oven functions. And with energy-saving tips, you can cook more efficiently. Your favourite dishes and methods can be saved on the app and sent to the oven at the touch of a button.

Based on external tests comparing raw broccoli against steamed broccoli vitamin C levels. Test performed based on determination of ascorbic acid (vitamin C) in foodstuff by HPLC/UV-visible method

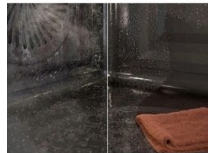

Let AI transform your recipes with steam
AI TasteAssist transforms traditional recipes with steam. Simply send a web recipe to your oven via our app and let AI optimise the time, temperature and function, helping you create more nutritious, delicious dishes with less energy.

Functions and Dishes. Automatic settings and step-by-step guidance
Assisted cooking Functions provide the best settings and automatic options such as Roast, Reheat and Dough Prove for outstanding results. And the Assisted Dishes function offers step-by-step guidance for meat, baking, cooking plant-based dishes, fish or vegetables.

AI TasteAssist is an AEG app feature that can import recipes in Italian, French, German, English, Swedish and Dutch. Languages to be added throughout 2025 are Polish, Czech, Hungarian, Romanian, Norwegian and Danish. The AEG is available in the App Store and Play Store.

Steam Cleaning. For effortless oven cleaning
Steam Cleaning notifies you when it's time to clean and easily remove grime with a damp cloth. Using steam to clean stains, it requires up to 95% less energy than pyrolytic cleaning.

- Multifunction
- Fast heating
- Electronic temperature control
- Steam Cleaning: By using steam to loosen food residue and grime, there's no need or harsh cleaning products, making this a more sustainable way to clean your oven.
- Residual heat indicator
- FloodLight™
- Cooling fan
- Telescopic runners Snapper kit, Telescopic Runners (TR1LFSTV) included

Product Specification
